

Updating 7" Capacitive Scroll

How to apply an update to your 7" Capacitive Scroll

- 1 Copy the update.zip file from your computer to the root of a micro SD card

- 2 Connect your Scroll to a power source (mains or USB)

- 3 Turn off your Scroll and insert your SD card with the update.zip file on it

- 4 Press and hold the + volume and power buttons until you see an Android icon appear on your screen.

- 5 Press the physical Home button on the Scroll

- 6 Using the + & - volume buttons to navigate the menu, highlight "apply Sdcard: update.zip" and use power button to select this option.

- 7 Select the "update.zip" file from the next menu

- 8 When the installation is complete select "reboot system now"

- 9 The Scroll will reboot with the browser update completed.
